

Tenses (B1 – B2 level)

You are writing letters to your friend:

A) write about a place where you spent your last holiday – describe the scene using past continuous or simple.

B) you are telling your friend that you are going to move to a new place, write about your plans and hopes, what the new place will be like – use future tenses.

C) you have experienced something for the first time in your life, tell your friend what you have done there (present perfect – when there is no time reference) and when you did it (past – used with time reference) .

Use the paintings as a background for your writing. Which picture is your classmate describing?
